MET ON THE TRESTLE!

Two Freight Trains Collide in Missouri.

The Crews Jump For Their Lives, but Many Cattle are Killed—A Wreck at Pilot Spring.

POPLAR BLUFF, Mo., June 5.—Freight train No. 75, south bound and fast stock train No. 76 north bound, collided on a trestle at Red Cut, one mile north of here at 6:30 last night. The trouble was caused by the train dispatcher giving both trainorders to run on the same time between Piedmont and this city. The trains met on the trestle while running about twenty-five miles an hour. The engines, five cars of stock and a dozen cars of merchandise were piled in a heap. About 100 head of cattle were killed. The loss will reach over $50,000. The wrecking crews are at work and it is expected the tracks will be cleared by noon today. All traffic is in the meantime suspended. The crews of the different trains saw the opposite train in time to jump, thereby escaping with slight injuries.

ST. LOUIS, Mo., June 5.—The southbound passenger train on the Iron Mountain railroad, which left here at 8:20 p. m. Saturday, jumped the track near Mill Spring, 121 miles south of this city, at an early hour yesterday morning. The engine remained upright, but several of the cars, including the smoker, were upset. The latter was filled with passengers. The accident was caused by a broken spring in a switch stand. Seventeen passengers and one trainman were injured. Their names and injuries are as follows:

Jerome Hill, St. Louis, hip hurt.
William Schling, left leg broken and hen t injured.
Ella Langley, right hand injured.
Mrs. Wallington, right arm and shoulder bruised.
Fannie Bell, left hand and head cut.
Patrick O'Connor, head cut and back injured.
P. S. Budd, arm broken.
Sedonia Ellmutter, head bruised and lip broken.
Lizzie O'Connor, right ear badly cut and head injured.
Peter Maurer, three years old, left hand injured.
W. R. Webber, hip injured.
J. A. Harrell, hip eye and hand cut.
Robert Brant, back hurt.
Alexander Malcolm, arm, hip and leg bruised.
Harry Cooper, right leg bruised.
C. W. Cooper, right leg bruised.
Fred Gastricht, right leg bruised.
P. Fitzsimmons, baggage man, left hand and shoulder injured.

TURNED THE TABLES!

The Accused in a Criminal Case Becomes the Accuser.

Remarkable Change of Affairs in a Highway Robbery Suit at Lawrenceburg, Ind.

LAWRENCEBURG, Ind., June 5.—Samuel Onsturf, a rich farmer of Ripley county, was arrested for highway robbery, on the affidavit of William Morris several years ago. Morris was a young farmer who asserted that he had been held up on the highway. He swore that the mask of one of the robbers dropped off and that he recognized Onsturf. While the jury was out Onsturf disappeared from the court room and was never heard of again until last week, when he appeared in court and demanded a new trial, offering in evidence an affidavit from Morris, who swore that he had never been robbed and that he accused Onsturf for revenge.

Onsturf explained that the night the jury was out he fled from the court room and hid in the branches of a tree that shaded the windows of the jury room and heard the jury announce a verdict of three years imprisonment and a heavy fine. When the officers went to summon Morris Saturday they found that he had fled the country.

REV. R. V. HUNTER

Resigns as Chairman of the Sunday Closing Committee.

TERRE HAUTE, Ind., June 5.—Rev. R. V. Hunter, of this city, has sent in his resignation as national chairman of the Christian Endeavor World's Fair Sunday Closing committee. He said: "I consider we have no further work since the courts have taken the matter in charge of opening and closing the gates. Some of the members want to keep up the fight by urging religious organizations to keep away from the fair, but I am not one in that move and I am doing all I can to cancel the Indianapolis convention to be held the 14th, 15th and 16th of this month, called to discuss the closing of the fair. There is no use of this convention. Secretary Bain, of the United Christian Endeavor society, of Boston, also agrees with me that the work of the Sunday closing committee is now finished and there is no need of further agitation."

THE DUKE WILL LEAVE

Chicago on Wednesday for a Tour Before Returning to Spain.

CHICAGO, June 5.—The duke of Veragua, his family and his followers will leave Chicago Wednesday afternoon. They will go by the way of the Pennsylvania railway to Columbus, where they will be the guests of the city for several days. After two days at Niagara Falls and a short stay in New York the ducal party will sail for Spain. To-morrow night a farewell banquet will be tendered the duke and his family at the Richelieu. Many invitations have been issued. The duke will be ushered out of Chicago as he was ushered in, with a cavalry escort and some military display. On Tuesday the duke and the duchess will meet the Princess Eulalia and her suite at the depot. Later in the afternoon the duke will make a formal call upon the infanta at the Palmer house.

EULALIA'S PARTY

Left New York for Chicago at Noon Today.

Tomorrow Morning, at 8:25 O'clock, the Train Will Pass Through Fort Wayne.

NEW YORK, June 5.—The Infanta and her party started westward this morning to see the sights of the world's fair and enjoy the hospitality of Chicago. The departure from the Hotel Savoy was made at 11 o'clock and the royal visitors were escorted to the Pennsylvania railroad ferry at the foot of West Thirty-fourth street by a battalion of the United States signal corps. Mayor Gilroy and the reception committee of twenty were in waiting. The steamer General Slocum conveyed them to Jersey City, where the Infanta and her party boarded a special train and started for Chicago over the Pennsylvania railroad at 12:40 o'clock.

The train will reach Fort Wayne at 8:25 o'clock tomorrow morning.—Ed.

IN THE SADDLE AGAIN.

Henry Ives, the Young Napoleon of Finance, on Deck.

He Makes a Material Deal in Railroad Circles by Purchasing the Ohio Southern.

CINCINNATI, June 5.—Henry S. Ives is in the saddle again, so far as Ohio railroads are concerned. His purchase of the Ohio Southern, a significant road, has resulted in its extension to Lima, from whence a line to Toledo is being surveyed. This will give a direct outlet, via the lakes, to the northwest of the most extensive coal, iron and coke regions in Ohio.

By the arrangement with the Lit'e Miami and Muskingum Valley roads, both of the Pennsylvania system, roads will run into Cincinnati from Toledo via the former and from the coal fields via the latter, thus opening to this city the finest coal deposits in the state. Railroad men regard the deal as a masterful one.

NATIONAL AFFAIRS.

There Will Be No Extra Session of Congress.

The Opinion of the Supreme Court on the Chinese Exclusion Law Is Delayed.

WASHINGTON, June 5.—Rumors of a special cabinet meeting called for today and of the announced intention of the president to call congress in extra session before September 15, have been most industriously circulated. Numerous dispatches, based upon special dispatches to this effect, were made this morning at the white house, but without eliciting any confirmation of the rumor. If any such intentions as those attributed are entertained, the president and his chief advisers remain not to be aware of the fact.

The opinion of the majority of the supreme court on the Chinese exclusion and restriction law, which was announced by Justice Gray, has not yet been filed with the clerk of the court and there is no telling when it will be filed. Justice Gray has started for his circuit (the First) going by way of Ohio, where he will visit relatives, and will probably forward the text of the opinion from Boston. In the meantime Chief Justice Fuller and Justice Brewer withheld their dissent on file at the time it was announced.

Assistant Secretary Hamlin, of the treasury department, in the absence of Mr. Carlisle, is acting secretary of the treasury.

The president today appointed Charles H. Mansur, of Missouri, to be second comptroller of the treasury. John M. Webster, of New Mexico, to be a commissioner from the territory of New Mexico to the World's Columbian commission; Charles W Dayton, of New York city, to be postmaster of that city.

ARCHBISHOP SATOLLI

Opens the Church of St. Trinity at Chicago.

CHICAGO, June 5.—Archbishop Satolli today, by virtue of his ecclesiastical powers, opened the old Polish church of St. Trinity, on Noble street, which has been practically closed for seventeen years, owing to the refusal of the parishioners to accept a particular priest assigned to the church.

Ever since Father Mielcarzy, the last pastor of the church, died the people of the parish have gone as usual to Sunday devotions, but the sacred words of consecration have been all this time unspoken, for no priest attending to offer the holy sacrifice of the mass. The people lighted the candles enough; recited the rosary, and sang

DR. LYMAN ABBOTT.

The Plymouth Pastor Discourses on the Briggs Case.

He Says That Dr. Briggs and Not the Assembly Has Defended the True Christian Faith.

NEW YORK, June 5.—Rev. Dr. Lyman Abbott, in his sermon on the Briggs case yesterday, at Plymouth church, Brooklyn, endeavored to prove that Dr. Briggs and not the general assembly during the last two years, had defended the true Christian faith; that it was not Dr. Briggs that was heretical, but that the stand taken by the general assembly was one whose logical result was infidelity. Dr. Abbott spoke of the battle which has gone on from the day of Moses down to the present between the ecclesiastic and the prophet, the one maintaining that the institution is the essential thing, and the other that the individual personal life was the essential thing and there could be no religious institution without it.

He asked, what is heresy? For one thing it is to declare that God is not the father of all mankind and leaves no door of access to himself save the one door of a written word that was not compiled till the human race had longed and cried and prayed for their father for two thousand years.

"In your name and in the name of all that believe in the living God, dwelling in the hearts of his children today, I thank this prophet, successor to the prophets of olden times, that in these two years of cruel trial he has never receded from his own position, never used words in a double sense, never retracted his one assertion, but has stood firmly and faithfully against persuasion on the one hand and attack on the other, for his fundamental principle—that God is in the heart of the individual and in the heart of His church, as revealed in the pages of the Bible.

"The Bible is not the word of God. And repeating almost the words, and certainly the sentiment, of Dr. Horton, who lectured last year before the students of the Union Theological seminary, I charge any man who calls the Bible the word of God, to find that phrase, 'the word of God,' ever employed in the Bible to designate the Bible, or even employed in one part of the Bible to designate any other part."

"When a man takes the book, that is what the men have written, puts it up and says 'you must not hear the word of God, you must hear only the echo of that word,' I don't wonder that misplaced indignation goes out against the book which the would-be defenders are misusing."

FINANCIAL MATTERS.

Several Small Failures in Chicago Recorded.

The Prairie State National Bank Experiences a "Run," But Meets It Squarely.

CHICAGO, June 5.—Mendenwald Bros., private bankers, closed their doors this morning. Their liabilities are about $40,000, and assets about $50,000.

The E. A. Armstrong company, engaged in the uniform manufacturing business, made an assignment in the county court this morning. The assets are scheduled at $250,000, and the liabilities at $105,000.

The property of C. A. Weisenbach, a clothing and shoe merchant at Eighteenth and Halsted streets and 220 Milwaukee avenue, was seized by the sheriff this morning. Execution was made on judgment aggregating $26,000, confessed in the circuit court.

The Prairie State National bank at the corner of Washington and Desplaines street experienced a run this morning and a large number of depositors, mainly in the savings department, withdrew their money.

Henry J. Evans, of the New York Biscuit company, one of the directors of the bank, said this morning that there is absolutely no apprehension on the part of the directors of the bank and that all claims of depositors would be promptly met. "The bank," said Mr. Evans, "is perfectly solid and it is as sound as any in the city."

NEW RAILROAD.

A Project to Connect all of Minnesota's Cities.

NORTHFIELD, Minn., June 5.—The last survey has been made from Rochester to Willmar, a distance of 108 miles, for a new railroad. The main object is to secure a direct Chicago line for the fifteen cities of southern Minnesota. Donald Grant, president of the new St. Paul and Duluth, is president of the company. The St. Paul and Duluth is to be built to Willmar this season and a direct line will be run from there to Omaha. A capital stock of $2,000,000 has been put in by New York men and the business men of northern Minnesota are to give the other half.

The reason for the postponement is the inability of Messrs Hill and Platt to leave during the present month.

RAIN AND SUNSHINE

Change Places at Frequent Intervals,

Causing the Spirits of World's Fair Visitors to Fluctuate and Flounder in Correspondence.

WORLD'S FAIR GROUNDS, June 5—Heavy clouds hung over Jackson Park this morning and the crowds which arrived on the grounds early to begin seeing the fair at the outset of its sixth week, were equipped with overshoes, umbrellas and raincoats. The grounds were still muddy from yesterday's showers and about a thousand men were at work on the main thoroughfares filling up the holes which the steam roller made solid a short time after. Along about noon, however, the sun came out and its lame beat soon did more than man and steam combined toward making pedestrianism pleasant.

The imposing lines of foreign pavilions on each side of the main aisle in Manufacturer's building, which is known as Columbia avenue, present a finished appearance today. The facade of every pavilion is practically complete. Russia, Canada and Norway only being a little short of reaching the finished stage.

The Spanish section, which is located just west of Columbia avenue, is in a backward state, only the Moorish arches, which are built into the roof and form the pavilion, being finished. The royal representative of the little Spanish king and the queen regent when she comes here this week will not be favorably impressed with the condition of the Spanish exhibits at the fair. Cuba's display in agricultural hall is ready for the Infanta Eulalia's inspection, however. The Infanta will not visit the fair until Thursday, and in the interim the forces are working night and day to have things in proper condition for her inspection.

BOOTH DYING.

His Physician Says There is No Hope of Recovery.

Taken Violently Ill a Week Ago, But the News of His Condition Is Suppressed.

NEW YORK, June 5.—Dr. St. Clair Smith, Edwin Booth's physician, issued the following bulletin at 9:30 o'clock this morning:

I have seen no improvement during the night.

(Signed) ST. CLAIR SMITH, M. D.

Pressed for more definite information regarding the great actor's condition, Dr. Smith said: "Well, I cannot add anything to the bulletin I issued at 5 o'clock last evening saying that my patient was growing weaker and there is no hope of even a partial recovery. His condition is very critical this morning. I cannot state it any stronger than that. I am obliged to leave him now for awhile, but I will return as soon as I possibly can, as I deem my presence necessary now constantly at the sick man's bedside."

Mr. Booth rallied from his relapse of a week ago Saturday, until last Saturday when he grew worse again suddenly. He was attacked with an exhausting fit of vomiting, during which it was thought he would suffocate. Dr. Smith was hastily summoned, but despite his best effort Mr. Booth grew weaker and weaker. Fault has been found, it is said, before of his giving news of his patient's relapses to the newspaper men, by Mr. and Mrs. Grossman, so this time he gave no hint of the actor's dangerous condition to any one, not even the employes of the club, until he felt just right that the end was at hand, and so issued the alarming bulletin.

After posting the notice he left the club for a time but returned at 11 p. m. and made arrangements for spending the night there. Superintendent McCunigle, Booth's brother-in-law, sat up at the dying actor's bedside with the trained nurse and the physician. The two messengers were summoned at midnight, when the end seemed imminent. One of them was to break for Mr. and Mrs. Grossman and the other for Dr. Allen Starr, but before this plan was carried out Mr. Booth seemed just a little better and the messengers were delayed but not dismissed. They were kept at the club. Mr. Booth seemed to suffer greatly from want of air. He breathed in gasps and the three windows in his room were opened at the top and bottom and the curtains drawn aside to admit as much oxygen as possible. About 2 a. m. he fell into a troubled slumber. Dr. Smith then retired until 8 a. m., when he went directly to Mr. Booth's room and remained with him for more than an hour. Then he posted the bulletin and left the club as stated above.

MORE FAILURES.

A Savings Concern in Sandusky City Succumbs.

The Ramsey Grain and Land Company Makes an Assignment—Runs On a Chicago Bank.

SANDUSKY, Ohio, June 5.—The Sandusky Savings bank closed its doors this morning and posted the following notice: "Owing to its inability to realize upon its securities this bank has been compelled to make an assignment for the benefit of its creditors. The depositors will be paid in full without loss to any one."

Following upon the stoppage of this bank comes the news that the Hospital Supply company has assigned to George Barnes and Charles Mack. It is reported that the savings bank had been carrying the Hospital Supply company, who made the assignment and gave power to take possession at any time.

KANSAS CITY, Mo., June 5.—The Kansas Grain and Land company, with general offices at Hutchinson, Kas., failed this morning. No statement of liabilities or assets has been given out, but it is believed the failure is a heavy one. The failure is probably due to the fact that their customers were long almost without exception, and could not respond to the calls for additional margins. The company has been the leading one in the west, conservatively managed and with such good credit that in ordinary times it could have secured all the money it wanted. The company operated about one hundred elevators along the line of the Santa Fe road and throughout Kansas.

The State Bank of Commerce, having offices on the ground floor of the Woman's Christian Temperance temple, is experiencing a heavy run this afternoon. It started just before noon with the appearance of some thirty or forty depositors. The news spread like wild fire and within half an hour the lobby was filled with an excited crowd of men and women who tore and crushed in order to get within the glass doors.

At 12:30 an iron-barred express wagon, containing several bags of gold, was hurriedly driven up to the building and the money carried in by stalwart watchmen and placed upon the counters. This, however, did not allay the apprehensions of those outside, and for awhile the crush was intensified. The bank officials did not seem to be in the least alarmed. Cashier Frederick Miller said to the representative of the United Press: "We are not alarmed, and we will meet this run." Then he added as a kind of afterthought, "That is, as long as we are able."

A run was also started on the Dime Savings bank, at 105 Washington street, this afternoon. This institution has deposits aggregating $600,000, and among its directors are Col. Robert C. Clowry, vice-president of the Western Union Telegraph company, and ex-Senator Charles B Farwell. President Bailey, of the bank, says he has a dollar and a half for every dollar deposited, but the greater part of the money is tied up in securities.

He does not know how long the bank can stand the run, but expects to pull through today. The bank has a capital stock of $100,000 and a surplus of $50,000.

It is also reported that there is a run on the Hibernian bank, one of the largest savings institutions in the country. The bank is paying off depositors at the rate of three a minute. The deposits amount to three and one half million, and they believe they can stand the run.

FRANKLINTOWN, June 5—Washington Butcher's Sons, provision dealers, today filed an assignment, with Geo. W. Lex as the assignee. No statement of the assets or liabilities can be obtained. Tightness of the money market is the announced cause of the embarrassment.

For the first time in months the gold reserve in the Chicago sub treasury has been drawn on to meet the gold shipments from the east to Europe. A [illegible] consignment of $1,000,000 has been dispatched by the United States Express company to the east. There is yet a balance of more than $7,000,000 in the sub-treasury in government funds. This is being added to daily by many of the Chicago banks, which are largely depositing gold in exchange for currency.

LIZZIE A. BORDEN

Takes the Seat in the Dock and the Trial Begins.

NEW BEDFORD, Mass., June 5.—The long anticipated Borden murder trial has begun. At an early hour this morning every available sheriff spot on County street near the court house was occupied and patrolling the sidewalks and standers waited until the bell on the court house was tolled, signifying the opening of court.

At precisely 10:58 Miss Lizzie A. Borden, the prisoner, came slowly into the court room and was shown to her seat in the dock.

Every seat in the room was occupied by the sworn and newspaper men, no outsiders being admitted up to that time, and within the bar enclosure were a few of the prominent men of the county, who had been accredited with by courtesy.

The County Commissioners Grant Seventy-two of Them.

The Township Trustees Re-Elect F. J. Young as County School Superintendent.

The county commissioners were in session today and granted seventy-two licenses to sell intoxicating drinks by the glass.

The last will of Wm. J. Simonton has been filed in the clerk's office. He leaves his property to his brother and nephew. His brother, Geo. W. Simonton, takes charge of his saloon fixtures. Dr. S. C. Metcalf is named as his executor.

John Peters who fell down stairs and was injured a week ago was declared insane by a commission in lunacy consisting of Justices Hayes and France and Drs. Stumen.

The township trustees of the county met in the commissioners' room this afternoon and re-elected F. J. Young county superintendent. Mr. Young was thus elected last fall to fill the vacancy caused by the resignation of Mr. Felts.

KNIGHTS OF PYTHIAS.

The Grand Lodge in Session at Indianapolis.

L. C. Hunter and E. V. Emerick left this afternoon for Indianapolis to attend the grand lodge of the Knights of Pythias, which meets tomorrow for a two days' session. Grand Chancellor Sivers left Saturday.

The principal subject that will be discussed will be the rule adopted at the supreme lodge's meeting in Kansas City requiring the ritual to be printed only in English. There has been a great deal of complaint from the Germans, with whom the order has been popular, and Grand Chancellor Sivers has received many protests. The subject of the new castle hall will also be discussed.

The election of officers will occur Wednesday. The number of new lodges will not be far from forty, and the membership in the state is now about 35,000.

TRUSTS AND COMBINES.

The People Opposed to Them Meet in Convention.

CHICAGO, June 5.—The anti-trust convention, which met in Apollo Music hall today, was not imposing in numbers, but it was a representative one and its members were full of enthusiasm and determination. The convention was called by Governor Knute Nelson, who, in obedience to a resolution passed by the legislature of his state, issued an invitation to all the states of the union to take part in a conference to devise means to abolish trusts and combines. Thirty-four states responded by appointing delegates and nearly that many states were represented today.

The convention was called to order by Governor Nelson, who read an address in which he gave a history of the anti-trust movement in Minnesota, which had resulted in the call for the convention.

A GREAT SUCCESS

Are the Rain-Making Experiments of Prof. Jewell.

TOPEKA, Kas., June 5.—There was a light fall of rain at Meade this morning between 2 and 4 o'clock. Rainmaker Jewell reports that it is raining heavily south of there, the wind carrying the storm in that direction. It is cloudy and threatening all this forenoon at Meade. The first fall of rain that Meade has had since last September has come since Jewell began his rain-making experiments there last Thursday, and the Chicago and Rock Island railroad officials give him the credit for causing it.

ALL QUIET AT LEMONT.

Two Quarry Firms Resume Operations.

CHICAGO, June 5.—Two gangs of men went to work in the Lemont stone quarries this morning. They are in the employ of Virlon A. Co. and Martin Delaney. Both contractors have been paying $1.75 a day, and had not intended to make a reduction of twenty-five cents. So far this morning all is quiet, the strikers awaiting the action of the companies. They repeat their declaration that any attempt by the contractors to import laborers will be resisted.

ALEXANDER JOHNSON.

Elected Superintendent of the Feeble Minded Institute,

In a Run of Many Republican and Has Had Years of Experience in Charitable Work.

Dashingated Special.

Alexander Johnson has been elected superintendent of the Indiana School for Feeble Minded at Fort Wayne. The election is four days old, but the official correspondence was not concluded until today. The election is looked upon by the board of trustees and the governor as a fortunate solution of a problem that troubled them. The peculiar circumstances that led up to the vacancy of the superintendency at the Fort Wayne school—an institution that had for its head a man that for four years everybody looked upon as ideal—complicated the question of selecting a successor. The secretary of the state board of charities was invited to co-operate with the board of trustees in finding a man. One day it occurred to the governor and to the trustees that Secretary Johnson himself was the man, and that conclusion was speedily put into an agreement, which resulted in his election. The one difficulty, which the trustees and the governor found, was that the appointment of Mr. Johnson created a vacancy that was scarcely less difficult to fill than the one at Fort Wayne. A number of small politicians had lost longing eyes on the state secretary's office since it was created. Mr. Johnson offered some objections, and the members of the state board of charities were vigorous in their protests. The whole matter, however, has ended in Mr. Johnson sending his official acceptance of the superintendency. The board, before going into the matter of an election, agreed the superintendent must be a married man. Mrs. Johnson is a capable woman, in whom the board has confidence.

BIOGRAPHICAL SKETCH.

Alexander Johnson was born in Lancashire, England, January 2, 1847. He came to Canada in 1869, and crossed over to the United States in 1872. He became identified with organized charities in Cincinnati in 1874. In that year the flood in the Ohio river gave him an opportunity which enabled him to show no common faculties in handling relief and systematically carrying on charity in a discriminating way in the time of great calamity. Mr. Johnson was secretary of the associated charities of Cincinnati. He galvanized the organization into some life, and a large sum of money contributed by Cincinnati and outside communities was offered for the relief of thousands who had been flooded by the river. The associated charities secured the control of the distribution of relief to the city, and insisted that there should be a thorough investigation of every case reported. Mr. Johnson as secretary was executive head of the work. He brought to his assistance a large number of willing workers and his plans were carried out. All needed relief was furnished, nobody suffered and the charity workers were commended far and near. The organization of this relief brought Mr. Johnson into the attention of charity workers, and in 1886 he was called to Chicago and became identified with carrying on a charity organization society. The 1st of April, 1889 he became secretary of the state board of charities of Indiana, an office which he has filled from that time. He has organized the work of the office, and is looked upon as an authority by all charity workers. He is vice president of the National Conference of Charities, and general secretary of the International Congress, which will meet in Chicago in a few weeks.

TWO SERMONS.

Rev. J. S. Ainslie and Dr. G. K. Eldridge Preach Eloquently.

The service in the Synagogue yesterday, by the Plymouth church people, was largely attended. With Miss Wilson at the organ and Professor Miles director, the music was excellent. The pastor, Rev. J. S. Ainslie, preached upon "The Eyes of the Young Man opened," and plead with people to open their eyes to the beauty and grace and transforming power of the gospel of Christ. "The gospel," he said, "was always an eye-opener, a heart purifier and the great act character producing force in the world." The gospel, the speaker maintained, gives to each individual the true ideal of life, as the only solvent of the difficulties between capital and labor, and constitutes the essential means for all permanent social and industrial reform. This church will hold service each Sunday morning in June in the Synagogue.

Rev. Dr. Eldridge, in his sermon at the Wayne Street M. E. church last night, discoursed forcibly upon the theme "The Two Ways." The way of the sinner, he said, is filled with care and unhappiness and leads to death, but the path of the righteous is pleasant and ends in eternal life. He closed with a strong appeal to the sinner to forsake his wickedness and his rebellion to God and live a Christian life.

STRICKEN WITH PARALYSIS.

Joseph Hughes Lying in a Precarious Condition.

Word has been received in this city of the serious illness of Mr. Joseph Hughes, at Los Angeles, Cal. Last Sunday Mr Hughes had a stroke of paralysis which ill-fated all of one side and he is scarcely able to move. W. B. Bell left this morning for Los Angeles and as soon as possible Mr. Hughes will be brought to this city. About a year ago Mr Hughes spent several months in England and Wales and returned to this country much improved in health. Last fall Mrs. Hughes accompanied him to California and the southwest, hoping that a winter spent in a warmer climate would prove beneficial. Mr. Hughes is secretary and treasurer of the May Flower Mills company, of which firm Mr Solomon Bash is the head.

DIAMOND ROBBERY.

Bold Burglars Enter the Residence of W. H. Dreier.

They Carry Off a Fine Diamond, a Gold Watch and Some Cash—The House Ransacked.

Yesterday morning when Mr. and Mrs. William H. Dreier, of No. 178 West Berry street, arose they were surprised to find that their residence had been entered during the night by burglars and that things had been turned upside down in the lower rooms. A hasty investigation disclosed the fact that Mr. Dreier's fine [illegible] and chain, diamond stud and $16 in cash had been stolen. There were no signs of how the bold burglars effected an entrance into the residence but it is supposed they used a skeleton key and entered by the front door.

The entire downstairs had been ransacked. All of the silver plate had been carried into a room on the west side of the house and, strange to say, had been left there. Whether the thieves were scared off or whether they thought the plate too heavy and bulky to carry off, is not known. It is thought, however, that they carried the plate into the room to examine it by the light from the west window. There were no signs of any watches having been burned or the gas having been turned on. For this reason it is thought the burglary was committed between 4 and 5 a. m. the loss will reach nearly $300. Mr. Dreier especially valued the diamond stud as it was a present from his children. The police have been notified and are searching the entire city. It is thought the burglars are the same who entered the residences of Messrs. Nathan and Rothschild early in the spring.

SUDDENLY STRICKEN.

Wm. E. Marsh Suffers With a Severe Hemorrhage.

He is Taken to the St. Joseph Hospital for Treatment—A Case of Lockjaw.

William E. Marsh, a traveling acrobat who has been in this city for a few days and who was out of funds, was taken with a violent hemorrhage of the lungs in a saloon at No. 19 Harrison street, this morning. The poor fellow bleed fearfully and for a time it was thought he would die. Marshal Franke was called and reported the fact to Township Trustee Brackenridge. Marsh was taken care of and sent to the St. Joseph hospital, where he was resting somewhat easier at last accounts. The unfortunate man's home is in New York. He was at one time a well known showman and a star in his especial line. He was on his way to the world's fair, but ran out of funds and was compelled to stop off in this city.

Frederick Roesener, a blacksmith, residing at No. 336 South Broadway, was Saturday taken violently ill with lockjaw. Last Monday he ran a splinter under the nail of the index finger. Nothing was thought of the wound at the time, but Friday the finger began to pain Mr. Roesener and by Saturday night he was suffering most violent convulsive spasms. Dr. Praegler was the attending physician but Dr. Schilling was called in consultation. This morning Roesener's condition was much more favorable, and it is now thought he will recover.

At a meeting of the congregation of the St. Paul's Lutheran church yesterday afternoon it was decided to allow Rev. Lindemann to accept the call to the professorship of the Addison, Ill., school. Rev. Lindemann has been assistant pastor under Rev. Sauer, at St. Paul's church, for several years and has endeared himself in many ways to the congregation, who regret to see him leave. His new position pays $1,200 per year. His successor will not be named for a few weeks.

A large crowd witnessed the game of ball at Lakeside park yesterday between the Huntington club and the Fort Wayne team. The visitors were badly defeated, the score standing 34 to 1. The Fort Wayne team will open Huntington's new park on June 22nd. At Net racks the Nebraska team defeated the Dorrmunders by a score of 21 to 9. At the State grounds, west of the river, the Standards beat the Stars in a score of 8 to 7.

[illegible] Resident in the vicinity of the corner of Lewis and Calhoun streets, heard a terrible racket going on between a man and woman near the gas works yesterday morning about 3 o'clock. Sergeant Bergman and officer Commor were called [illegible] Upon [illegible] Brown upon [illegible] [illegible] and [illegible] [illegible] [illegible]

RAILWAYS AND SHOPS.

The Pittsburg Limited Meets With a Slight Mishap.

Personal Points and News Paragraphs as Taken From the Note Book of Our Railway Reporter.

Tomorrow morning there will be four sections of the Pennsylvania train, No. 5. The fourth section will consist of three Pullman and two baggage cars, leaving Princess Eulalia and suite from New York to Chicago. This train, if on time, will reach this city at 8.35 o'clock, and will stop here ten minutes. No doubt a crowd will gather to pay honor to the distinguished party.

No. 5 IS TROUBLED.

Early yesterday morning Pittsburg train No 5, limited, stopped at the Van Wert yards to take on the dining car. Presently freight train No 81 came along and bumped into the rear of the limited and wrecked the observation car. No person was injured, but it was several hours before the wreck was cleared away and trains were all delayed. The company has not yet located the blame.

A VETERAN RAILROADER.

Rev. Ralph Swilburto, who now lives in Kenawha county, West Virginia, is said to be the oldest railroad man living. He was associated with Stevenson in the construction of the first locomotive, and, upon its completion, ran it when it made its first trip, and continued as its engineer for some time afterward. Continuing in the railroad business, Mr. Swilburto eventually rose to the superintendency of the first road upon which steam power was used, and remained in that position until 1861, when he came to America, and, after traveling extensively, located in West Virginia. He is a hale old gentleman, just turned eighty-seven, with his faculties unimpaired, and loves to talk of the strides that have been made in the railroad business during his life.

Theodore Kercher, assistant paymaster in the Pittsburg machine shops, is off duty today on account of the serious illness of his aged father, Rev. Kercher, formerly pastor of St. John's Lutheran church. Last evening the old gentleman was unconscious for several hours and the family had about abandoned all hope of his recovery.

A patent has been issued on a nickel plate rail, to be constructed of the same material as the nickel plate armor on war vessels. The inventor claims that seventy pound nickel plate armor rail will stand as much wear as one of the steel rails which weighs one hundred pounds to the yard, will cost no more than the heavier rail, and will be much more easily handled.

One of the brightest and oldest engineers in service, in speaking of the locomotive on exhibition at the world's fair, built from plans and specifications of the engineers of the Erie road, said that it it was the intention of proclaiming to the world that this machine was the engineers' idea of a locomotive perfect in all its parts, they had fallen short of the mark, as eight out of ten engineers would prefer to run an engine not so heavy and difficult to handle as is the E. D. Thomas.

A RURAL MYSTERY

Pittsburg Girl Who Has Been Murdered by Unknown Person.

Alice Hayes, a girl of 17 years, living near Clearwater Mines, was found dead the other evening in a pasture where she had gone for the cows. A child met her and left the girl was found near the body and her skull was fractured. No arrests have yet been made. The girl was the child of a woman named Hayes, who lives on a farm known as the old Hayes place, run by a man named Jarvis, the woman keeping house for him. Another of the Hayes women, who has a son, also lives in the house. The girl went after the cows Sunday, and not returning Jarvis went after her and found her dead in the road. There is great excitement in the village of Clearwater, and to clear himself Larkin took and smashed the coroner, claiming the girl died from heart disease. A post mortem by the doctors, however, revealed a fracture of the skull and both eyes, a contusion of the forehead and a mark at the base of the head, all made with a blunt instrument. No other marks of violence were on the body.

On the 1st day of October, 1891, the sun rose in unclouded splendor, and as it sailed serenely across the heavens all nature seemed to participate in Columbus' joy. And yet that day was destined to be marked in the annals of this journal as one of sorrow and despair. From that time the once keen locks of the query editor began to fade, and the lines of premature senility furrowed his brow. On an average 28,437 out of every 100,000 requests for information received at this office since that portentous date have related to the age and birthplace of Baby Ruth Cleveland. In compassion upon the sufferings of the bell-worn query editor we here formally announce that Miss Cleveland was born on Oct. 3, 1891, in New York, and log her multitudinous admirers to its content.—San Francisco Examiner.

It was wrong in the Chicago City Hall people to shut off the supply of water from Cyrus Teed's notorious College of Life just because Cyrus owed the city some $75 water taxes. On the contrary, the college should be given water freely, plenty of it, administered with a fourinch hose at full fire pressure twice at night—that is what Teed and his crank outfit ought to have.

What the Two-Price System Means.

It means an effort to charge you more for an article than it is worth.

It results in selling your goods at one price and your neighbor at another.

It means loss of time and dignity on your part in the effort to bargain clever down to his lowest price, or else it means paying more than you should because you will not descend to the contemptible level of haggling and bargaining over prices.

It means taking advantage of a customer's ignorance of the value of goods.

The two price system is essentially dishonest, and you should as soon think of handling pitch and expect that your hands will not be soiled, as to trade in a store that is run on a two price system and not expect to be cheated.

The One-Price System Means

The lowest possible penny at which an article can be sold.

It means good goods and no misrepresentation.

It means the same price for you and your neighbor, and no position above the line.

The merchant who will try to get more for an article than it is worth will buy an inferior quality of goods, which he exhibits in order to deceive his patrons.

A five-price store is a very good place to keep away from.

Baking powders are made of cream of tartar powder, soda, or ammonia. Cream of tartar powder is the only pure baking powder. Even of cream of tartar powder there are many grades. Some are made of the refuse of wine casks. Some are made of the lees of wine casks. Some are made of the crude tartar deposited on the sides of wine casks. Some are made of the crystals of wine casks. Some are made of the bitartrate of potash of commerce. Some are made of cream of tartar refined. Some are made of cream of tartar chemically pure. Some are made of cream of tartar absolutely pure.

KILLED FOR MONEY.

Idaho Bank Clerk with a Horrible Death to Gain.

Recent mails from the West Indies give particulars of an atrocious crime committed recently at Tamarara, a shopkeeper named Edwin Hall was murdered by some unknown person or persons. Hall was the chief of Tamarara Dutch Boers, about fifteen miles from Georgetown. He had a shop there and a woman named Heaney, who, with her son Joshua and daughter, resided in the upper part of the building. The family discovered that their tenant always carried large sums of gold, and stated principally of sovereigns. Joshua and Joshua Heaney, having decided to rob him, planned to attend a dance at Canal Zorgen, made arrangements with him on the way, knocked him down, and, three men over assisting, threw him into the lake. Indian Hero the murderers was joined by his mother and sister, who, it appears, assisted in removing the body to a favorable spot, where they lightened the mind himself, and left other portions of the body, as they thought, beyond recognition. When they buried the remains in a trench and in order to hide the traces of their crime planted some young trees over the place. A few days later the presence of a large number of crows around the spot led to the discovery of the body, and the murderers were arrested. Joshua Heaney has since confessed to the crime.

HYPNOTIZED HER.

Peculiar Absolution Case Recently Developed in Chicago.

Nonie Sevenbergs, the pretty and accomplished daughter of wealthy and highly respected parents, surprised her friends the other day by eloping from their church home to take up her life with Oliver Rutter, a gambler. Miss Sevenbergs is only 18 years old, while Rutter is nearer 30. The day following their disappearance they were located in a second-class hotel in North Chicago, where they registered as Oliver Rutter and wife, although a marriage ceremony had not yet been performed. They were found up to await the decision of the grand jury, which finally indicted Rutter on a charge of abduction. It seems that Rutter is possessed of hypnotic power to an extraordinary degree. This power he brought to bear on the victim to such an extent that she became in total case to his will. The family coming trial promises some extraordinary developments, and it is not unlikely that the judgment will be very severe.

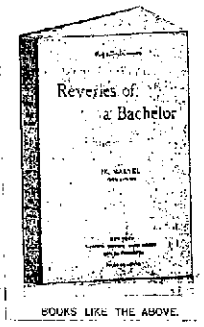
OUR NEW DEPARTURE.

Remarkable Distribution OF STANDARD BOOKS!

At Nominal Prices,

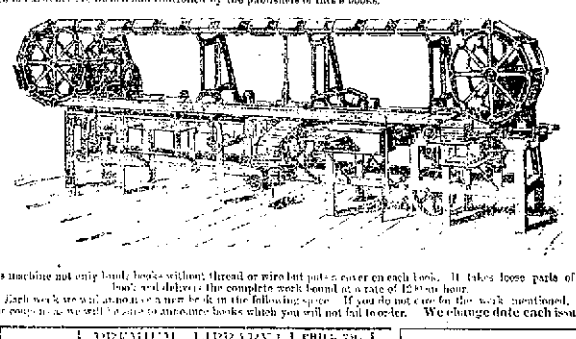
And that can only be made possible by our co-operation for the benefit of the "Sentinel" Readers.



BOOKS LIKE THE ABOVE.

We take pleasure in announcing to our readers that we have made a contract whereby we can furnish them with standard books at absolutely less than wholesale prices. The books which we offer each week are by well known authors, printed from absolutely new type especially made for these works. The binding is bound by an entirely New Process which does away with the old style of thread or wire binding. Each book is bound into the back separately and all guaranteed with the whole, allowing the book to lie Perfectly Flat when open giving ease and comfort to the reader.

The following is an illustration of the new process perfect binding machine which does this work and the only machines in existence are owned and controlled by the publishers of these books.



This machine not only binds books without thread or wire but puts a cover on each book. It takes loose parts of the book and delivers the complete book bound at the rate of 12 books an hour.

Each week we will add another number to the list in the following series. If you do not care for the work mentioned, write your own in as we will be glad to add more books which you will not fail to order. We change date each issue.

NO. 7. | PREMIUM LIBRARY | PRICE 75c. Postage, 10 cts. Total, 85 cts. For Two Weeks Only.

DREAM LIFE.
By IK. MARVEL.

The books which we offer are superior in every way to those offered in so called free book distribution fund which are dear at any price. Our readers will see this at a glance by sending for the work offered above.

Send the Book Coupons of different dates, and 10 cents for either of these books or 40 cents for all four, and you will be delighted with our offer.

GRADUATING DAYS.

This Is the Month of School Commencements.

When Fair Graduates Will Close College Doors Behind Them—Local Society Gossip.

Commencement days are with us once again and in all the colleges and seminaries and schools of the nation young men and women are preparing for the day that marks a new era in their lives, while parents and acquaintances and friends are looking forward with fond anticipation to the graduating exercises of the fair participants in which they feel such a deep interest.

As we look upon these preparations, how vividly our own commencement day comes back and with it all the hopes and promise of the future that was budding in our breast that day. School days over, our greatest troubles left behind us, then the school course we looked forward to days of no more, only as to a dream of bliss about to be realized.

Dear sister graduates, you will find, as we have done, that there are lessons to be learned after the doors have banged to behind your retreating forms and the great bells cease to echo to your wonted footsteps. They will be hard or easy, as you yourselves make them. It lies with you to make your life worthy and noble or aimless and colorless.

In whatever path your steps may stray exert always a pure and gentle womanly influence that will dignify your surroundings by the light of your gracious presence. Let duty be your watchword, for in its fulfillment lies the truest happiness, and though in other by ways than in that of the whip that promises greater pleasure, keep to the highway of truth and loyalty and your reward will be a consciousness of duty done that is more soul satisfying than the transient, evanescent delights that accrue from selfish gratification, but which always leaves a sting in their wake that rankles in the memory for years.

COMMENCEMENTS.

The commencement exercises of the Conservatory of Music will be held at the First Baptist church Tuesday evening, June 20. The graduates are Mamie Muller, Daisy Bates, Ella Simon, Ida Jackson, Lillian Garriges, Mrs. H. Rhamm and Rose Johnson.
